Special Issue

Selected Papers from The 12th International Conference on Electrical Power Quality and Utilization (EPQU2020)

Message from the Guest Editors

The 12th International Conference on Electrical Power Quality and Utilization will be hosted by the AGH University of Science & Technology in Krakow, Poland from 14-15 September 2020

(www.epgu2020.agh.edu.pl). Papers submitted to this conference, but also papers covering the topics of the conference are invited to be submitted to the Special Issue in the *Energies* Journal. The preferential subjects are the following: Power quality parameters: evaluation and standardizationMethods of power quality analysis. Modeling and simulationPower quality measurements: techniques, instrumentsMethods of power quality improvement: filters, power compensation, phase balancing, etc. Power quality in competitive electricity marketsEMC in electrical engineeringEconomic aspects of power quality and cost of supplySensitivity of loads and other electrical equipment to power quality characteristicsInfluences of disturbing loads on supply networks and other electrical devices Electrical and exploitative characteristics of loads and electrical power convertersReliability and continuity of supplyPower quality in grids with distributed generationSmart grid solutions to improve power quality

Guest Editors

Prof. Dr. Andreas Sumper

Department of Electrical Engineering (DEE), Universitat Politécnica de Catalunya, Barcelona, Spain

Prof. Dr. Zbigniew Hanzelka

Department of Power Electronics and Automation of Energy Transformation Systems, AGH University of Krakow, 30-059 Kraków, Poland

Deadline for manuscript submissions

closed (31 December 2020)

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
