

## Special Issue

# Energy Performance and Indoor Climate in Buildings

### Message from the Guest Editors

This Special Issue is dedicated to energy performance, HVAC, and other technical systems, and indoor climate analyses in buildings. Articles dealing both with new and renovated, low energy and nearly zero energy buildings (NZEB) are welcomed. Benchmarking, assessment of technical solutions needed for NZEB, performance analyses of HVAC systems, cost optimality, and energy flexibility measures in the context of new smart readiness indicators are some examples of topics which are highly welcome in this Special Issue.

---

### Guest Editors

Prof. Dr. Jarek Kurnitski

Prof. Dr. Martin Thalfeldt

Dr. Andrea Ferrantelli

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
