

## Special Issue

# Selected Papers from 28th European Biomass Conference & Exhibition (EUBCE 2020)

### Message from the Guest Editors

The 28th European Biomass Conference and Exhibition Conference (EUBCE), held during 6–9 July 2020, was the first virtual Biomass Conference in Europe (e-EUBCE 2020). EUBCE is one of the world's leading R&D conferences combined with an international exhibition. EUBCE represents the leading platform for the collection, exchange, and dissemination of scientific know-how in the field of biomass and its utilization. The 2020 conference program addressed many topics, including biomass production, biomass conversion to bioliquids and biofuels for heat and electricity, transport, and bio-based products, and covering all aspects of each value chain, from supply and logistics to conversion technologies, from the industrial application of research results to the impacts of biomass utilization on the environment, as well as aspects of market and trade and policy strategies, and last but not least the role of biomass as a source in integrated energy systems.

---

### Guest Editors

Dr. David Baxter

Former European Commission, Joint Research Centre, 1000 Brussels, Belgium

Prof. Dr. Solange I. Mussatto

Department of Biotechnology and Biomedicine, Technical University of Denmark, DK-2800 Kongens Lyngby, Denmark

---

### Deadline for manuscript submissions

closed (30 November 2020)

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
