

Special Issue

Sustainable Energy Development Strategies: Energy Efficiency and Renewables

Message from the Guest Editors

The Special Issue will include the following topics:

- Analysis of sustainable energy development policies and strategies;
- Development and application of indicator systems, tools and techniques for assessment of sustainable energy development;
- Assessment of climate change mitigation policies;
- Energy efficiency analysis and assessment of energy efficiency policies;
- Analysis of renewable energy development and the associated policies;
- The interlinkages among sustainable energy policies and climate change mitigation policies;
- The assessment of role of renewables in achieving climate change mitigation targets;
- The assessment of role of energy efficiency improvements in achieving climate change mitigation targets;
- The assessment of energy technologies in electricity, heat and transport sectors;
- The assessment of demand side management measures;
- The role of environmental and social innovations in achieving sustainable energy development goals;
- Data Envelopment Analysis;
- Index Decomposition Analysis;
- Multi-criteria Decision Making

Guest Editors

Prof. Dr. Dalia Štreimikienė

Institute of Economics and Rural Development, Lithuanian Centre for Social Sciences, 03220 Vilnius, Lithuania

Prof. Dr. Tomas Baležentis

Lithuanian Institute of Agrarian Economics, 01113 Vilnius, Lithuania

Deadline for manuscript submissions

closed (28 March 2019)

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
