

Special Issue

Governance, Legislation and Economic Policy for Green Energy Production: The EU Green Deal Framework and Horizon 2030—2nd Edition

Message from the Guest Editors

The following topics are addressed:

- The EU Green Deal's impact on energy management;
- Measures adopted for the energy transition;
- The reduction of polluting energies;
- Stimulus of green energies and their efficiency;
- The energy markets, negotiation and conflict-resolution methods;
- The improvement of renewable energy (green and blue energies);
- Convergence actions for energy transition between EU and Member States;
- NEPCPs plans for energy transition and climate-neutral economies;
- Governance, legislation, and economic policy for green energy production;
- Digital economy and energy issues in the EU;
- Wellbeing economics and energy issues in the EU;
- Guidelines and legal-policy instruments in the energy sector;

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
