

Special Issue

DEM of Multiphase Flows and Powder Processing

Message from the Guest Editor

Dear colleagues, This Special Issue will focus on all aspects of DEM (discrete element method) and CFD-DEM simulation from fundamental research to applications. We encourage the development of algorithms for efficient calculation, unprecedented application, and utilization of AI. Keywords:

- discrete element method
- discrete particle simulation
- computational fluid dynamics
- numerical analysis
- multiphase flow
- powder processing
- DEM
- CFD-DEM

Guest Editor

Prof. Dr. Yutaka Tsuji

Department of Mechanical Engineering, Osaka University, Osaka 565-0871, Japan

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
