Special Issue

Innovative Hydrogen Energy Processes and Technologies II

Message from the Guest Editors

This Special Issue aims to bring together innovative hydrogen production processes and technologies with their commercial applications to further increase the impact of hydrogen on the global energy market. Original research articles and comprehensive reviews along with well-documented case studies will be considered for publication.

Guest Editors

Dr. Petros G. Savva

Department of Chemical Engineering, Laboratory of Environmental Catalysis, Cyprus University of Technology, Limassol 3036, Cyprus

Dr. Stathis P. Theofilou

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba
Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:
indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:
CiteScore - Q1 (Control and Optimization)
