Selected Papers from PRES 2018: The 21st Conference on Process Integration, Modelling and Optimisation for Energy Saving and Pollution Reduction

Message from the Guest Editor

Energy use and emissions should be accompanied by measures for their reduction. This is in the focus of the series of conferences, PRES (Conference on Process Integration for Energy Saving and Pollution Reduction), a major annual forum dedicated to the exchange of knowledge and networking. The 21st conference—PRES 2018, will take place in Prague, 25–29 August, 2018. The conference targets a wide range of topics related to energy supply, conversion and use, for improvement of the efficiency and sustainability of the concerned activities. Some of the topics include:

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy
