# Special Issue

# Sustainable Resources and Energy Recovery from Wastes towards a Circular Economy

## Message from the Guest Editor

The Special Issue "Sustainable Resources and Energy Recovery from Wastes towards a Circular Economy" aims to present and disseminate the most recent advances related to resource and/or energy recovery, as well as policy, experiments, design, modelling, application, and management practices for all types of solid waste materials.

- energy recovery
- resource recovery
- greenhouse gases
- material and chemical recycling
- circular economy

## Guest Editor

Prof. Dr. Yong-Chul Jang

Department of Environmental Engineering, Chungnam National University, Daejeon 34134, Republic of Korea

## Deadline for manuscript submissions

closed (31 October 2023)

# Energies

# About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Editor-in-Chief

Prof. Dr. Enrico Sciubba
Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy

### Author Benefits

**Open Access:**
free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:**
indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:**
CiteScore - Q1 (Control and Optimization)
