

Special Issue

Economic and Social Consequences of the COVID-19 Pandemic in Energy Sector

Message from the Guest Editors

The aim of this Special Issue is to highlight research on the consequences of the COVID-19 pandemic on the broadly understood energy sector and on the energy market after one year.

- changes in the energy sector as a result of COVID-19
- the energy market during the pandemic
- changes in energy balance as a result of COVID-19
- retail and wholesale energy prices during the pandemic
- adaptation measures in the energy sector during the pandemic
- the energy consumption in the private and public sectors as a result of COVID-19
- the energy consumption by individual consumers and businesses during the pandemic
- innovation in the energy sector and the energy market during the pandemic
- innovation in other sectors during the COVID-19 pandemic affecting energy consumption
- renewable energy during the pandemic
- alternative energy sources during the pandemic
- shifting energy-related ecological and environmental patterns as a result of COVID-19
- projected social consequences of COVID-19 on the energy market and the energy sector

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
