

Special Issue

Bioproducts & Environmental Sustainability

Message from the Guest Editors

This Special Issue will deal with novel research developments regarding the production of bioproducts, such as bio-based materials, chemicals, and biofuels that consider environmental sustainability. The topics for this publication include, but are not limited to the following:

- Biomass conversion technologies for synthesizing bioproducts
- Biomass valorization of value-added materials
- Improvement of the biofuel process to save energy and water consumption
- Eco-friendly biofuel production technologies
- Bioconversion of GHG and wastes for synthesizing biofuels and biochemicals

Guest Editors

Dr. Jin Hyung Lee

Korea Institute of Ceramic Engineering and Technology, Jinju, Korea

Dr. Soo Youn Lee

Gwangju Bio/Energy R&D Center, Korea Institute of Energy Research (KIER), Daejeon 300-010, Korea

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
