

Special Issue

Role of Hydropower for Sustainable Future Energy System: Synergies, Challenges and Development

Message from the Guest Editors

We organize this Special Issue, and welcome studies and research which address but are not limited to the following topics:

- interactions between the hydropower energy-water with respect to climate and hydrological variables
- climate-policy, power grid management options, socio-economic mitigation measures and land use
- hydropower policy developments or business innovations
- decision support systems and optimization modelling for hydropower
- quantifying the impacts of hydropower production on ecosystems
- predicting complementarity of hydropower with wind/solar
- application of new tools, such as remote sensing techniques, to accumulate environmental dataset for hydropower planning, operation, and monitoring

Guest Editors

Dr. Epari Ritesh Patro

Department of Civil and Environmental Engineering, Politecnico di Milano, 20133 Milan, Italy

Prof. Dr. Carlo De Michele

Department Civil and Environmental Engineering, Politecnico di Milano, 20133 Milano, Italy

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
