

Special Issue

Design, Modeling, and Optimization of Novel Fuel Cell Systems

Message from the Guest Editor

This Special Issue is now open for submissions. Topics of interest for publication include, but are not limited to, the following:

- Innovative and alternative approaches to the design and modeling of fuel cell systems
- Studies of fuel cell-based systems related to economic and/or environmental aspects
- Photovoltaic or wind turbine-fuel cell hybrid energy systems
- Flexi-fuel stationary SOFC-based systems
- Methanol-fueled PEMFC systems for onboard applications
- Green marine propulsion power plants and hybridization options with conventional propulsion
- Combination of fuel cell technology with refrigeration cycles
- Alternative methods of electrolysis applied at the system level
- System analysis for solar-driven CO₂ electrolysis
- Hydrogen production using solid oxide electrolysis integrated with renewable heat and power
- Application of novel control strategies in fuel cell systems

Guest Editor

Dr. Alexandros Arsalis

Research Centre for Sustainable Energy (FOSS), University of Cyprus, Nicosia 1678, Cyprus

Deadline for manuscript submissions

closed (10 March 2023)

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
