

Special Issue

Smart Energy Management and Power Electronic Systems

Message from the Guest Editor

We are organizing a Special Issue that may be of interest to you. As a , I cordially invite you to submit a manuscript for consideration and possible publication in a Special Issue on “Smart Energy Management and Power Electronic Systems.” In it, we are aiming to present the most recent and interesting advances on the topic, including new research, new innovations, and new tools and devices for industrial applications. The Special Issue brings together the following themes:

- Smart energy management for smart grids, micro grids, and nano grids
- Smart control against cyber-attacks in power electronic systems
- Smart power devices
- Smart converters
- Intelligent energy control and monitoring in buildings and in public lighting
- Intelligent energy management for renewable energy
- Smart energy management for electric vehicles

Guest Editor

Dr. Kambiz Tehrani

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
