

Special Issue

Environmental Impact of Nature-Based Tourism

Message from the Guest Editors

Has tourism become more of a threatening process than an economic saviour in the conservation of the world's most attractive ecosystems? Curiosity is the human condition. Budget air travel and a burgeoning middle class has opened up most of the world to mass tourism. To capitalize on the positive sides of tourism, knowledge is necessary on the relationship between visitor usage and environmental impacts, the management of this relationship and the promotion of low-impact variants of visitor behaviour. In this special issue we review the environmental impacts of tourism and present original research to tease out this relationship, which has become a pressing problem for some nations and a much searched topic on the internet. Our focus is nature-based tourism. We offer practical solutions to redress the adverse impacts of tourism where identified without being exhaustive on this large and complex problem. We invite papers presenting original research on this topic to add to and enhance this special issue.

About the Journal

Message from the Editor-in-Chief

Environmental issues are quickly becoming central political, economic and academic topics of the twenty-first century. A large number of modern challenges are directly or indirectly caused by complex interactions between environmental issues. Such issues require interdisciplinary research, knowledge and insights to understand and, ultimately, for solutions to be found. Through the journal *Environments*, we strive to create a platform for meaningful discourse by accepting contributions from a wide range of fields. We sincerely hope you will consider publishing your distinguished work in this highly-accessible, peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Sergio Ulgiati

1. Department of Science and Technology, Parthenope University of Naples, Centro Direzionale, Isola C4, 80143 Napoli, Italy
2. State Key Joint Laboratory of Environment Simulation and Pollution Control, School of Environment, Beijing Normal University, No. 19 Xijiekouwai Street, Beijing 100875, China

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubAg, AGRIS, GeoRef, and other databases.

Journal Rank:

JCR - Q2 (Environmental Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 25.7 days after submission; acceptance to publication is undertaken in 3.7 days (median values for papers published in this journal in the first half of 2024).
