

Topical Collection

Diversity Leaders in Fire Science

Message from the Collection Editors

The open access journal, *Fire* acknowledges the need to recognize underrepresented voices in fire-science, such as indigenous and racial minorities, women, individuals with disabilities, and the LGBTQIA community, who all bring different areas of knowledge in science and ways of taking action. This Special Collection seeks to highlight the contributions of these individuals through invited contributions. If you believe that an individual scientist should be highlighted for their contributions to fire science, suggestions can be sent to the for consideration. We look forward to receiving your recommendations. Dr. Susan Prichard

Collection Editors
