

Special Issue

Sensory Analysis of Plant-Based Products: Series II

Message from the Guest Editor

As the of the Special Issue below, I would like to invite you to contribute a paper that focuses on the “Sensory Analysis of Plant-Based Products: Series II”. Plant-based products are one of the fastest growing segments in the food industry. Consumers have begun to seek out plant-based products for a variety of reasons, including allergies to dairy, hypercholesterolemia prevalence, vegan diets, as well as concerns about sustainability. For new, novel plant-based products to succeed, they need to be functional and acceptable to consumers. Therefore, there is a growing need to develop new plant-based products and the sensory properties of these innovative food products need to be evaluated. This Special Issue will provide a platform for investigating plant-based alternatives and their corresponding sensory properties, as well as consumer perception. Research articles, reviews, and mini-reviews on the various aspects of plant-based products are welcome.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.3 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).
