Biotechnology Approaches in Food Preservation and Food Safety

Message from the Guest Editors

The United Nations (UN) adopted the 2030 Sustainable Development Agenda in September 2015. High standards of safe, nutritious, and affordable food are aligned with the 2030 Agenda goals. From “farm to fork” biotechnology can be used to improve food safety and quality. This Special Issue is devoted to topics focused on biotechnology approaches in pre- and post-harvesting of produce, food processing and preservation technologies, and methods for monitoring food safety and quality. Consequently, this Special Issue, “Biotechnology Approaches in Food Preservation and Food Safety”, will cover a selection of original research and current review articles related to the use of novel biotechnology approaches to monitoring food safety and quality.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.3 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).
