Trends and Prospects in the Role of Bioactive Compounds in Food and Human Health

Message from the Guest Editors

Bioactive compounds play a pivotal role in food, contributing not only to sensory attributes but also to promoting human health. Among them, bioactive compounds, including (poly)phenolic molecules, contribute to the diverse colors, flavors, and aromas of foods. Beyond sensory aspects, these chemical entities are linked with a multitude of biological activities, including antioxidant, anti-inflammatory, anti-diabetic and anti-obesogenic properties. Understanding the dynamic interplay between these compounds and human physiology is a key focus of contemporary food science research. Addressing the latest trends and research prospects, this Special Issue welcomes contributions that delve into advancements in the bioavailability and health effects of these compounds. With insights into regulatory aspects and market perspectives, this Special Issue aims to guide researchers in shaping the future of food innovation and nutrition.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.3 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).
