

Special Issue

Food-Evoked Emotion, Product Acceptance, Food Preference, Food Choice and Consumption: The New Perspective on Developing Novel and Healthier Products

Message from the Guest Editor

Measuring food-evoked emotions is a topical topic in sensory and consumer sciences. Emotions are becoming a critical component in designing products that meet consumers' needs and expectations. Emotional profiles may effectively differentiate products with similar sensory characteristics and hedonic ratings. Emotion profiles and ratings may provide additional information that goes beyond traditional hedonic ratings and may provide more insight toward food choice. Human senses and cues play an instrumental role in food choice and intake, emotion, and product acceptance. This Special Issue aims to publish original and cutting-edge research and comprehensive reviews contributing to a deeper understanding of food-evoked emotion, food choice, preference, acceptance, and consumption. Papers from multi- and interdisciplinary perspectives, such as food and sensory sciences, culinology and gastronomy, nutrition and health sciences, psychology, business and marketing, and consumer behavior are very welcome.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.3 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).
