

Special Issue

Plant-Based Alternatives to Meat Products: Innovative Processing Technologies and Their Future Perspectives

Message from the Guest Editors

Our Special Issue will focus on plant-based alternatives to meat products: innovative processing technologies and their future perspectives. It will provide an overview of the current status and future perspectives of plant-based alternatives to meat products in addition to looking at innovative technologies that could be adapted to enhance the production of alternatives. Potential topics include, but are not limited to, the following:

- Plant-based alternatives to meat products.
- Innovate processing technologies for plant-based alternatives to meat products.
- Bioactive compounds from food matrices with antidiabetic potential.
- Future prospects to produce plant-based alternatives to meat products.
- Challenges and opportunities for the formulation of plant-based alternatives to meat products.
- Consumer knowledge and preferences for plant-based alternatives to meat products.
- Plant-based alternatives production technology.

Guest Editors

Dr. Claire Darizu Munialo

Dr. Parag Acharya

Prof. Dr. Frank Vriesekoop

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.3 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).
