

Special Issue

Membrane Technology in Food Processing

Message from the Guest Editors

The application of membrane technology in the food and beverage industries increased dramatically in the 1980s. Today, the food industry represents the second biggest worldwide industrial market for membranes after water and wastewater treatment. Increase in demand for food and beverages, the high product purity requirements of numerous companies, and availability of diverse fields of application for the membrane technology drive the market. This Special Issue of *Foods* welcomes works related to the topic of membrane technology in food processing. Original contributions including theoretical and experimental insights as well as reviews on recent advances on membrane operations and integrated membrane systems in various fields of the food production (i.e., fruit juice and beverage, milk, wine, beer, vegetable oil, etc.) are greatly welcome.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.3 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).
