

Special Issue

The Application of Microalgae for the Development of High-Added-Value Products

Message from the Guest Editors

Microalgae are recognized as a source of numerous bioactive compounds, including essential nutrients and phytochemicals, with remarkable functional activity and strong impact on health. They also represent a sustainable food ingredient with great importance in the context of climate changes and food shortage. Microalgae can be an alternative source of proteins, polyunsaturated fatty acids, and carbohydrates, which will be needed in the next decades. They are attracting attention as food for the future, and they can be promising ingredients to develop innovative foods, with new colors and improved nutritional profiles. This Special Issue is a good opportunity for colleagues working in the fields of biochemistry, rheology, food technology, nutrition, and sensory evaluation to submit high-quality manuscripts.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.3 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).
