Quality Evaluation of Bee Products

Message from the Guest Editors

Bee products, such as honey, bee pollen, bee bread, royal jelly, propolis and bee-related insect foods, are widely consumed as natural/functional foods or supplements, owing to their nutritional/bioactive characteristics, which are beneficial to human health. In order to improve the quality of bee products and promote the healthy development of the bee product industry, it is vital to strengthen the quality evaluation system of bee products based on their physicochemical and biological characteristics. We sincerely invite submissions to this Topic on “Quality Evaluation of Bee Products”. The topics include, but are not limited to, the following: Distribution of different nutrients in bee products; Residue detection of hazardous substances in bee products; Characterization of botanical or geographical markers in bee products; Identification of genomic characteristics in bee products; Evaluation of biological/functional activities of bee products; Application of Omics technology to the composition analysis of bee products.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.3 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).
