

Special Issue

Integrated Governance Mechanisms for Empowerment and Resilience in International Food Value Chains

Message from the Guest Editors

Considering the importance that the food sector has taken on in recent years, the main objective of this Special Issue is to identify the most appropriate governance mechanisms (formalised and relational) for the management of collaborative relationships along the international chain of food companies, which are increasingly subject to greater risks and disruptions. These chains are characterised by a high degree of fragmentation, combined with a great asymmetry of power in favour of the large international buyer chains, which impose conditions on the rest of the companies that reduce their capacity not only to create value but also to survive. This dependence increases the risk of opportunistic behaviour by the dominant partner, coupled with new uncertainties in the target markets (e.g., Brexit, Russian crisis, COVID-19); to face these challenges, companies need governance mechanisms that favour their resilience to disruptive environments, enabling their empowerment as protection against abuses of power and facilitating the establishment of fair and sustainable value generation and capture processes among all stakeholders.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.5 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2024).
