Advances of Ultrasound and Microwave Technology Application in Foods

Message from the Guest Editors

The current search for new and effective bioactives capable of treating or preventing human chronic diseases is part of a major trend by the food industry in their development of functional foods. New technologies for extracting these bioactives that meet environmental safety standards are a top priority. This issue will focus on microwave and ultrasound technologies, as novel green methods for extracting new and established bioactives. The demand for high quality, minimally processed products by consumers has also led to an increase in the use and development of novel microwave and ultrasound technologies for processing foods as well as for extracting bioactive compounds. New advances in the development these technologies will be discussed as well as their advantages over traditional methods.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.5 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2024).
