

Special Issue

Recent Advances in Forest REDD+ Research

Message from the Guest Editors

The agriculture, forestry, and land-use sector contribute significantly to greenhouse gas (GHG) emissions, accounting for a quarter of global GHG emissions. The main cause of deforestation is the conversion of natural forests into agricultural land or pastures, resulting in approximately 13 million hectares of deforestation annually. This Special issue aims to present selected contributions addressing advances in REDD+ research, focusing on the successful implementation of REDD+ and all related theoretical and practical issues. Potential topics include, but are not limited to the following: implementation of REDD+; forest restoration; livelihood of forest-dependent communities; forest ecosystem services; social capital and governance; land tenure and social safeguards; monitoring, reporting, and verification (MRV); green finance; voluntary carbon market.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the second half of 2024).
