Special Issue

Soil Pollution and Remediation of Forests Soil

Message from the Guest Editors

Forest ecosystems are an important part of terrestrial landscapes, covering nearly one-third of them. These ecosystems provide a vast range of services, such as ensuring biodiversity, socio-cultural benefits, and climate regulation. Unfortunately, forests are undergoing anthropogenic stress. Therefore, we must to improve our knowledge about the ability of forest to purify pollutants and the mechanism of forest restoration in post-industrial areas to plan and develop more efficient remediation and reclamation methods. Potential topics in this Special Issue include, but are not limited to, the following: The spatial variability of harmful substances content and metal speciation in forest soil;The heavy metals and harmful substances on forest ecosystem;Ecotoxicological responses and phytoremediation of forest stands;Pollution control and strategies for the management and decontamination of forest areas;The restoration of forest ecosystems in post-industrial areas.

Guest Editors

Dr. Katarzyna Maria Wiatrowska

Department of Soil Science, Land Reclamation and Geodesy, Poznań University of Life Sciences, Piątkowska 94, 60-649 Poznań, Poland

Dr. Justyna Likus-Cieślik

Department of Ecological Engineering and Forest Hydrology, University of Agriculture in Krakow, 29 Listopada 46, 31-425 Krakow, Poland

Deadline for manuscript submissions

31 January 2025

About the Journal

Message from the Editorial Board

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editors-in-Chief

Prof. Dr. Cate Macinnis-Ng
Department of Biological Sciences, Faculty of Science, University of Auckland, Private Bag 92019, Auckland 1142, New Zealand

Prof. Dr. Giacomo Alessandro Gerosa
Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.9 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2024).
