Special Issue

Forest-Mammalian Herbivore Interactions and Contemporary Forest Management

Message from the Guest Editors

The reciprocal ecological and evolutionary interactions between forest trees and mammalian herbivores have received considerable research attention over the past few decades. However, contemporary forest management requires a deeper understanding of the interactions between mammalian herbivores and forests, from the tree to the landscape scale, especially under significant global change. This Special Issue welcomes papers focused on any aspect of forest–mammalian herbivore interactions with a particular focus on modern or novel approaches to the management of native and non-native forests, including in the context of global change and recovery from a major disturbance. The scope of the papers includes empirical research with a mechanistic, process, ecological, genetic, or modeling focus and review-style papers. Julianne O'Reilly-Wapstra and Ben Moore

About the Journal

Message from the Editorial Board

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editors-in-Chief

Prof. Dr. Cate Macinnis-Ng
Department of Biological Sciences, Faculty of Science, University of Auckland, Private Bag 92019, Auckland 1142, New Zealand

Prof. Dr. Giacomo Alessandro Gerosa
Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.9 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2024).
