

## Special Issue

# Planted Forests and Climate Change—Selected Papers from the IUFRO 125th Anniversary Congress

### Message from the Guest Editors

Planted forests are significantly affected by climate change. Plantations offer the opportunity to influence the regeneration process better than with natural regeneration. A better reactivity also means an increased responsibility of forest managers in a highly uncertain environment. We need to provide information to decision makers about the climatic uncertainties, the adaptability of genetic resources, the best management options to improve stand resilience and cope with future climate in a given area. In addition, we need to be able to quantify the risk associated to choices made in order to add value to empirical decisions. Thus, climate/site/genetic interactions have to be more accurately explored and infrastructures for research on adaptation to climate change need to be further developed.

### Guest Editors

Dr. Christophe Orazio

EFI Atlantic European Regional Office, CESTAS, France

Dr. Elena Paoletti

IPSP-CNR in Sesto Fiorentino, Florence, Italy

Dr. Margarida Tomé

Forest Research Centre, School of Agriculture, University of Lisbon, Tapada da Ajuda, 1349-017 Lisboa, Portugal

### Deadline for manuscript submissions

closed (11 August 2018)

## About the Journal

### Message from the Editorial Board

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

---

### Editors-in-Chief

Prof. Dr. Cate Macinnis-Ng

Department of Biological Sciences, Faculty of Science, University of Auckland, Private Bag 92019, Auckland 1142, New Zealand

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.9 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2024).
