Sap Flow Measurements—A Tool To Talk with Trees

Message from the Guest Editors

Sap flow records (phytograms) are the way we are communicating with trees to evaluate plant water status and understand tree behavior under variable environments. Such phytomonitoring in combination with experimental treatments magnifies the efficiency of our “talk” with trees with the aim to collect their insights. In this Special Issue, we are calling for novel original papers on sap flow methodology and applications in different fields of tree or forest research and irrigation scheduling which reflect new aspects of our communication with trees and demonstrate how deep we are in understanding their life. If we can comprehend how a tree deals in the harsh environment, we could better help our mute and motionless Earth inhabitants to overcome the negativity of fast global climate change.

About the Journal

Message from the Editorial Board

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editors-in-Chief

Prof. Dr. Cate Macinnis-Ng

Department of Biological Sciences, Faculty of Science, University of Auckland, Private Bag 92019, Auckland 1142, New Zealand

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.9 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2024).
