

Special Issue

The Role of Forests for Achieving the Sustainable Development Goals (SDG)

Message from the Guest Editors

The UN resolution of 2015 “Transforming our World: The 2030 Agenda for Sustainable Development” addresses the global environmental and socio-economic challenges. Fulfilling some of them may or may not be beneficial for the others, but as a whole the linkages between them are significant. Protecting environment is key to the quality of life, and several SDGs have a strong environmental dimension. Although there is no specific SDG titled “Forests”, the case in point is that SDG 15 addresses forestry in a broad spectrum. Therefore the aspects concerning forests are relevant for many of the other SDGs, and the fulfillment of some will have an immediate or long-term impact on forests. The special issue is to identify the role of forests in achieving the SDGs in different geographical settings. Scenarios are appreciated which explore how the role of forests is going to change when foreseeable global changes such as climate change, urbanization, and improved education and awareness take place.

About the Journal

Message from the Editorial Board

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editors-in-Chief

Prof. Dr. Cate Macinnis-Ng

Department of Biological Sciences, Faculty of Science, University of Auckland, Private Bag 92019, Auckland 1142, New Zealand

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.9 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2024).
