

Special Issue

Impact of Climate Change on Tree Growth and Physiology

Message from the Guest Editor

Dear colleagues, Climatic conditions establish the matrix of seasonal variation of precipitation and temperature, the two basic parameters that plants need to cope to grow and reproduce. At an evolutionary time-scale, plants adapted to different climatic conditions, developing diverse morphological, physiological, and phenological strategies, help to map biomes. Trees are long-lived structures and in that sense are subjected to short-term weather variations, and long-term climatic trends. In this Special issue of *Forests*, we are looking for new research, review articles, and opinion articles on the impact of climate change on trees and trying to answer some of the previous questions or new ones raised by researchers.

About the Journal

Message from the Editorial Board

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editors-in-Chief

Prof. Dr. Cate Macinnis-Ng

Department of Biological Sciences, Faculty of Science, University of Auckland, Private Bag 92019, Auckland 1142, New Zealand

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.9 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2024).
