

Special Issue

Agroforestry Systems as Strategy to Recover Soil Health and Mitigate Climate Changes

Message from the Guest Editors

In this Special Issue on “Agroforestry Systems as Strategy to Recover Soil Health and Mitigate Climate Changes”, we invite papers that can help us understand topics concerning ecosystem services provided by soil–animal–plant synergies in agroforestry system models in tropical and temperate climate zones. Potential topics include, but are not limited to:

- Soil carbon stocks after agroforestry systems introduction;
- Soil health and ecosystem services provided by integrated systems;
- Determining greenhouse gas emissions from animals, plants, and soil;
- Quantification of biomass and litter production as a function of different arrangements;
- Distribution of soil fauna functional groups and microbial community;
- Modeling approaches to investigate agroforestry productivity and soil carbon sequestration.

Guest Editors

Prof. Dr. Leidivan Almeida Frazão

Dr. Luiz Fernando Carvalho Leite

Dr. Arlete S. Barneze

Deadline for manuscript submissions

30 November 2024

About the Journal

Message from the Editorial Board

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editors-in-Chief

Prof. Dr. Cate Macinnis-Ng

Department of Biological Sciences, Faculty of Science, University of Auckland, Private Bag 92019, Auckland 1142, New Zealand

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.9 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2024).
