

## Special Issue

# Impact of Global Economic Changes on the Wood-Based Industry

### Message from the Guest Editors

Global economic changes have had a significant and mostly negative impact on the complex system of the wood-based industry, both locally and globally. These are reflected in the increased prices of materials, increased transportation costs, and disruptions to global supply chains. These trends are most visible in countries where the forest product industry plays a vital role in their economies. However, these changes have focused attention on achieving an eco-friendly, sustainable, and greener economy, the necessary future direction of this industry. New possibilities are opening up for the wood industry to create effective green solutions to meet consumers' needs. Given the complexity of this industry, interdisciplinary collaboration is needed to overcome this issue, identify appropriate ways to lessen the negative effects and take advantage of its development potential. Articles that investigate the implications of global economic change and offer innovative solutions for wood-based industries are eligible for this Special Issue. Original works, reviews, and short communications are all welcome.

## About the Journal

### Message from the Editorial Board

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.9 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2024).
