

## Special Issue

# Silviculture Measures Needed to Keep Up with Changes in Forests

### Message from the Guest Editors

Around the world, huge areas of forest are being influenced by man. Forest management takes time, and the status of current forest stands is a result of traditional management and natural disturbances. New research, observations and practical experience have generated the knowledge that such stands are often unstable in changing environments. Therefore, forest managers and owners seek new measures that help to make forest stands more stable and capable of providing wood and other forest services. The objective of this Special Issue is to introduce recent research results related to silvicultural measures (thinning, methods of regeneration, conversion, etc.) and their effects on forest stability and the provision of productive and non-productive forest services under changing environmental conditions.

## About the Journal

### Message from the Editorial Board

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

### Editors-in-Chief

Prof. Dr. Cate Macinnis-Ng

Department of Biological Sciences, Faculty of Science, University of Auckland, Private Bag 92019, Auckland 1142, New Zealand

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.9 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2024).
