Special Issue

Artificial Intelligence for Smart Cities

Message from the Guest Editor

This Special Issue aims to provide a platform for the discussions of novel scientific and technological insights, principles, algorithms, and experiences in topics including but not limited to:

- Novel AI-based analytics on data to improve efficiency, product quality and employee safety;
- Data-driven innovations for demand planning and logistics management;
- AI-based and green-based supply chains;
- Applications of IoT for tracking production across entire processes and supply chains;
- Advanced AI technologies for enhancing the connectivity of any components of smart cities;
- Hybrid meta-heuristic algorithms with AI technologies in enhancing the connectivity of any components for smart cities;
- Intelligent solutions for future smart cities;
- Smart transportation and traffic prediction for smart cities using IoT;
- Cloud and data analytics for the effective analysis of industrial data;
- Smart grid and sustainable energy solutions for smart cities;
- Smart governance and smart education;
- Smart cloud storage and data access.

Guest Editor

Prof. Dr. Wei-Chiang Hong

Department of Information Management, Asia Eastern University of Science and Technology, Taipei 22064, Taiwan

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Future Internet is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.

Editor-in-Chief

Prof. Dr. Gianluigi Ferrari
Department of Engineering and Architecture, University of Parma,
Parco Area delle Scienze, 181/A, 43124 Parma, Italy

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:
indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, Inspec, and other databases.

Journal Rank:
JCR - Q2 (Computer Science, Information Systems) / CiteScore - Q1 (Computer Networks and Communications)
