

Special Issue

Ancient Viruses and Their Impact on Host Species - Emerging Themes in Paleovirology

Message from the Guest Editors

This Special Issue is designed to provide an overview of the emerging themes and currently unanswered questions in paleovirology. We encourage the submission of studies from all areas of paleovirology, and are particularly interested in the following:

- Primary research and review articles that examine the putative functional roles of EVEs.
- New perspectives on ancient virus diversity and the evolutionary relationships between ancient and modern groups.
- Experimental studies reporting interesting yet unexplained paleovirus-related phenomena.

Guest Editors

Dr. Daniel Elleder

Institute of Molecular Genetics, The Czech Academy of Sciences, Prague, Czech Republic

Dr. Robert J. Gifford

Centre for Virus Research, MRC-University of Glasgow (UK), Glasgow, UK

Deadline for manuscript submissions

closed (15 November 2021)

About the Journal

Message from the Editor-in-Chief

Genes are central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fastmoving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised.

Why not consider *Genes* for your next genetics paper?

Editor-in-Chief

Prof. Dr. Selvarangan Ponnazhagan

Department of Pathology, The University of Alabama at Birmingham,
1825 University Blvd, SHEL 814, Birmingham, AL 35294-2182, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Genetics and Heredity) / CiteScore - Q2 (Genetics (clinical))
