Message from the Editorial Board

Geographies is an open access, cross-disciplinary journal that covers the physical features of the earth and its atmosphere, also including the human dimension. The scope of this journal is extremely wide, from the study of the various components that make up our planet, to the tools used to conduct these studies, to the human impacts that affect us all. All of these issues can be addressed at a variety of spatial and temporal scales from global to local and from a single point in time through eons. *Geographies* promotes a quest for knowledge and to finding solutions to many of our most pressing and timely issues to benefit our world.

Editor-in-Chief

Prof. Dr. Luca Salvati

Aims

Geographies (ISSN 2673-7086) is an international and cross-disciplinary open access journal. Our aim is to provide an advanced forum for studies related to all aspects of geographies. *Geographies* publishes critical reviews, regular research papers, communications and technical notes, as well as Special Issues on particular subjects.

The aim of *Geographies* is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. Therefore, the journal has no restriction on the maximum length of the papers. Full experimental details should be provided so that the results can be reproduced. Additionally, electronic files or software regarding the full details of the calculations, experimental procedure, etc, can be deposited along with the publication as 'Supplementary Material'.

Scope

- Climatology
- Geomorphology
- Biogeography
- Hydrology and hydrography
- Landscape ecology
- Soil geography
- Geomatics
- Spatial analysis
- Cartography and mapping
- Geographical Information Systems
- Geodesign
- Geostatistics
- Human–environment interaction
- Regional science
- Health geography
- Urban and Rural geography
- Social geography
- Economic geography
- Population geography

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

Coverage by Leading Indexing Services

ESCI (Web of Science), Scopus, AGRIS, RePEc, and other databases

Rapid Publication

A first decision is provided to authors approximately 17.5 days after submission; acceptance to publication is undertaken in 4.8 days (median values for papers published in this journal in the second half of 2024)
