Selected Papers from 1st International Congress on Earth Sciences in SE Asia

Message from the Guest Editor

The 1st International Congress on Earth Sciences (ICES 2017), in SE Asia <http://fos.ubd.edu.bn/foscon/> envisions taking a further step in geosciences congresses, by creating uniquely emerged, topic-related sessions. The objective is to bring together geoscientists from all over the world to share and exchange ideas and to present recent advances in topics of Earth Sciences. ICES 2017 will be the place to foster collaborations and networking among peers. We expect young researchers to meet with senior scientists in an effort to meet experience and expertise. Highly respected keynote speakers will open the sessions. Selected papers (from oral and poster presentations, including ePoster) from ICES 2017 will be published in this Special Issue, aiming at gathering a number of peer-reviewed publications on new advances in Earth Sciences. Gratefully acknowledged by the Organising Committee of ICES 2017, the publication fees for the papers are kindly being sponsored by *Geosciences*.

About the Journal

Message from the Editor-in-Chief

Understanding the Earth's origin and its bio-geological evolution, the multiple implications of the geosciences (as a coherent set of interconnected disciplines), and the sociocultural and ethical interdisciplinary approaches, will be crucial for a better understanding of Nature, and also for undertaking scientifically based political decisions.

We are committed to drive *Geosciences* to a position in which it is recognized for its high-quality, cutting-edge research and scientific influence, and strongly encourage and invite your participation and manuscripts.

Editor-in-Chief

Prof. Dr. John C. Eichelberger

Alaska Center for Energy and Power, University of Alaska Fairbanks,
Fairbanks, AK, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), GeoRef, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
