Health and Disease in Frail Elderly: Assessment and Management in Clinical Practice

Message from the Guest Editors

This Special Issue will focus on a wide range of essential topics relevant to infections in frail elderly, including epidemiology, physiology, immunology, microbiology, biomedical laboratory science, clinical studies, clinical decision-making, as well as interprofessional collaboration and co-production with frail elderly and next of kin as partners of the team. High quality original research and review articles in any of these areas will be considered. Especially we highlight clinical studies that show how interprofessional collaboration improve the clinical decision-making process. We hope you and your colleagues will be willing to submit your creative work to this exciting Special Issue of *Geriatrics*. We look forward to hearing from you. Dr. Ewa Grodzinsky

About the Journal

Message from the Editor-in-Chief

Our new journal is launched to serve geriatrics specialists and colleagues from other disciplines as an interface between theory and clinical practice. Pushing the boundaries of the discipline, I kindly invite you to consider publishing your current work in *Geriatrics*. We have chosen the format of an open access journal to provide all interested parties with a platform for their basic research and health care studies as well. For details on the submission process or any other matter, please visit the journal website. I hope to handle your contribution to *Geriatrics* soon to publish innovative, relevant, thought provoking ideas.
