

# Special Issue

## Medication Safety

### Message from the Guest Editor

The scope of this Special Issue is to disseminate research evidence on medication safety. The Special Issue will include research on the development and testing of interventions to increase medication safety. Research relating to factors affecting medication safety is also within scope the scope of this Special Issue. We encourage submissions related to one or more of the priority areas and domains of the World Health Organization Medication Without Harm Challenge. The priority areas are: high-risk situations, transitions of care, and polypharmacy. The domains are: patients and the public, healthcare professionals, medicines, and systems and practices of medication. Submissions may be quantitative, qualitative, or mixed-methods research or reviews that meet established review standards, and data may be from primary or secondary sources. All types of study design will be considered. All healthcare settings, including acute care, long-term care, community and home care, mental health, and primary care will be included. All populations and medical conditions will be considered.
