Message from the Editor-in-Chief

Hydrobiology (ISSN 2673-9917) is an international, cross-disciplinary, peer-reviewed, open access journal related to the science of life and life processes in water. It publishes regular research articles, reviews, and short notes. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. The full experimental details must be provided so that results can be reproduced.

Editor-in-Chief

Dr. Cláudia Pascoal

Aims

Hydrobiology (ISSN 2673-9917) is an international, cross-disciplinary, peer-reviewed, open access journal related to all aspects of hydrobiology, spanning from freshwater, groundwater, estuarine, and marine habitats. It publishes regular research articles, reviews, and short notes with no restriction on the maximum length of the papers. Our aim is to stimulate the exchange of knowledge within the scientific community through the publication of experimental and theoretical results. We encourage contributions focused on a broad range of ecological interests and impacts. Results from large temporal and spatial scales are particularly welcome. Submissions to the journal must provide full experimental details so that results can be reproduced.

Scope

- aquatic ecosystems
- fauna, flora and other living species in the aquatic environment
- systematic, taxonomy and biology of aquatic organisms
- biotic interactions in plankton assemblage
- freshwater, brackish or marine habitats
- biological research in limnology and oceanography at molecular, organism and ecosystem-level
- acidification of ocean, lake and reservoir
- cycles of major nutrients (phosphorus, nitrogen) eutrophication and environmental management
- aquatic biodiversity conservation
- fisheries and aquaculture

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

Rapid Publication

A first decision is provided to authors approximately 23.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024)
