

Special Issue

Feature Papers in *Hydrobiology* 2022–2023

Message from the Guest Editors

We are happy to announce the Special Issue "Feature Papers in *Hydrobiology* 2022–2023". *Hydrobiology* is a new open access journal that offers an excellent opportunity to establish an exciting forum for the discussion and dissemination of high-quality research in freshwater and marine biology, limnology, fisheries, oceanography, and aquatic ecology. We welcome innovative, hypothesis-driven papers on current scientific challenges, as well as on new methodological tools and approaches to monitor aquatic biodiversity and ecosystems that tackle the socio-ecological complexity and the management of aquatic ecosystems

Guest Editors

Dr. Cláudia Pascoal
