

## Special Issue

# Socio-Hydrology: The New Paradigm in Resilient Water Management

### Message from the Guest Editors

This Special Issue on socio-hydrology intends to compile interdisciplinary (natural & social sciences) scientific endeavors and innovations on coupled human-water systems research development, applications and challenges. Research articles are solicited including, but not limited to the following topics: (1) methods of scientific inquiry for socio-hydrology; (2) learning about coupled human-water systems from an historic perspective; (3) comparative socio-hydrologic studies across interdisciplinary boundaries; (4) analysis of spatial dimension of socio-hydrologic factors; (5) resilience assessment and risk management in coupled human-water systems; (6) socio-hydrologic modeling techniques and applications; (7) challenges and opportunities in socio-hydrology learned from research and case studies; and (8) other topics relevant to the Special Issue theme.

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Ezio Todini

Italian Hydrological Society, Piazza di Porta San Donato 1, 40126  
Bologna, Italy

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, ESCI (Web of Science), PubAg,  
GeoRef, and other databases.

##### Journal Rank:

JCR - Q2 (Water Resources) / CiteScore - Q1 (Earth-  
Surface Processes)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 18.6 days after  
submission; acceptance to publication is undertaken in 2.8  
days (median values for papers published in this journal in  
the first half of 2024).
