

Special Issue

Advances in Intensive Care Nursing Research

Message from the Guest Editors

This Special Issue of *International Journal of Environmental Research and Public Health (IJERPH)* focuses on the current state of knowledge of nursing care in different intensive care specialties. We welcome manuscripts focused on patient follow-up, e.g., intensive care diaries and post-intensive care teams. Nursing interventions or quality development, e.g., care bundles focused on reducing ICU delirium, promote sleep or patient comfort, person-centered care in ICU, care of the elderly and patient safety research as well as research on patient experience, post-intensive care syndrome (PICS) and advances in education in the ICU.

Guest Editors

Dr. Karin Skoglund

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
MD 21251, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
