

Special Issue

2nd Edition: Neuroprotection and Treatment in Intensive Care and Perioperative Medicine

Message from the Guest Editor

The first Special Issue on Neuroprotection and Treatment in Intensive Care and Perioperative Medicine was a great success. We received a handful of exciting papers focusing on this crucial topic, and we are now ready to continue our project. In this second Special Issue in the *International Journal of Environmental Research and Public Health*, we would like to focus on:

- Postoperative delirium, with particular attention to interventions aiming at reducing its incidence.
- Neuroprotective compounds and their role in the ICU and the perioperative setting.
- Cognitive impairment and dementia following ischemic stroke and cardiac arrest.
- Role of neuroprotection in patients suffering from traumatic brain injury.
- New findings on the mechanisms of neuroprotection in the preclinical setting.

Guest Editor

Dr. Mirosław Czuczwar

2nd Department of Anaesthesiology and Intensive Therapy, Medical University of Lublin, 20-081 Lublin, Poland

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
MD 21251, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
