

Special Issue

Cadmium, Environmental Exposure and Health Outcomes

Message from the Guest Editors

We are organizing a Special Issue on the environmental exposure and health outcomes of cadmium in the *International Journal of Environmental Research and Public Health*. The venue is a peer-reviewed scientific journal that publishes articles and communications in the interdisciplinary area of environmental health sciences and public health. For detailed information on the journal, we refer you to

<https://www.mdpi.com/journal/ijerph>. Cadmium is a toxic heavy metal with a harmful effect on the kidney, bone, and various organ systems. The main sources of cadmium exposure are considered to be the ingestion of contaminated food, active and passive smoking, and inhalation in workers from fields such as in battery manufacturing. Environmental cadmium exposure has been recognized as a worldwide public health issue. This Special Issue is open to any subject area related to environmental exposure to and health problems of cadmium. The listed keywords suggest just a few of the many possibilities.

Guest Editors

Prof. Dr. Yasushi Suwazono

Department of Occupational and Environmental Medicine, Graduate School of Medicine, Chiba University, Chiba, Japan

Dr. Masaru Sakurai

Department of Social and Environmental Medicine, Kanazawa Medical University, Ishikawa 920-0265, Japan

Deadline for manuscript submissions

closed (30 November 2022)

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
