

# Special Issue

## Child, Health and Equity

### Message from the Guest Editor

The *International Journal of Environmental Research and Public Health* (JERPH) calls for a paper on Child, Health, and Equity. The Special Issue aims to publish the latest interdisciplinary research related to child welfare, health equity, inequality in health care, social determinants of health, inequalities in child health between and within nations, and health and wellbeing issues related to immigrants and minorities. This special issue aims to expand the knowledge in identifying, exploring, and evaluating the factors that impede or facilitate health, equity in health, sustainable development goals related to health, issues related to immigrants and minorities' integration and acculturation, and the effect of COVID-19 concerning health and health equity. Overall, the special issue aims to solicit manuscripts from interdisciplinary and broader areas of child, health, and equity.

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.
