

Special Issue

eHealth Literacy

Message from the Guest Editor

The Special Issue on “eHealth Literacy” is planned as an occasion for demonstrating the synergies between eHealth and public health. Therefore, submissions focusing on following issues are particularly welcome:

- the relationship between eHealth literacy and health literacy in various populations;
- the revised definition and perception of eHealth literacy adjusted to the current stage of eHealth development;
- the validation of new tools for measuring eHealth literacy;
- the impact of eHealth literacy on health-related opinions and health behaviours as well as on the utilisation of health services and self-management;
- approaches to developing eHealth literacy and the effectiveness of applied interventions.

Apart from these topics, all papers addressing eHealth literacy and presenting related studies are encouraged. Researchers are invited to contribute novel work to be considered for publication in this Special Issue. Submissions should include original articles, critical reviews (systematic reviews or meta-analyses), or brief reports.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
